Reproducibility audit: paper_002

TabPFN: A Transformer That Solves Small Tabular Classification Problems in a Second (ICLR 2023, 2022)

Generated 2026-10-15 11:20 from the project database.

Summary

Not scored

Score breakdown

No score is stored for this paper.

Latest run

Field	Value
Run	pilot-36759195752-paper_002
Status	FAILED
Exit code	1
Duration	0.975 s
Failure category	MISSING_DEPENDENCY
Seed	42
Started	2026-09-30 18:32:15

Standard error (last 20 lines):

```
Traceback (most recent call last):
  File "/workspace/repo/tabpfn/scripts/tabular_baselines.py", line 6, in <module>
    from catboost import CatBoostClassifier, Pool
ModuleNotFoundError: No module named 'catboost'
```

Claims

No claim comparison is stored for this paper.

Integrity

Outputs SHA-256:

`not recorded`

Run manifest SHA-256:

`not recorded`
